

# TELLS OF WRECK ON RIO GRANDE

Ogden Man Talks of the Collision Near Bingham Junction.

MIRACULOUS THAT  
NO ONE WAS KILLED

Is Connected With Utah Company, Building Road in New Mexico.

Special to The Tribune.  
OGDEN, Jan. 29.—C. A. Bybee of the Utah Construction company, who has been looking after the work of construction on the Rocky Mountain & Pacific in New Mexico, returned to Ogden tonight for a visit with his family.

Mr. Bybee was in Saturday's wreck of the Rio Grande, about one mile south of Bingham Junction, but escaped without injury and states that the escape of the other passengers was remarkable. He details the wreck and wonders that others were not injured and that there was no loss of life or limb, only two persons being injured, and these only in a minor way.

Of the work of the Utah Construction company, he states that his being called to Ogden may result in his being sent to the California end of the construction of the Western Pacific, and he hardly expects to return to New Mexico. Thirty miles of the grade of the Rocky Mountain & Pacific has already been constructed and ninety-five miles is remaining.

GRANDEUR OF WASATCH.  
Pastor of Ogden Presbyterian Church Delivers First of Series of Lectures.

Special to The Tribune.  
OGDEN, Jan. 29.—At the Presbyterian church Sunday morning, Dr. John E. Carver, pastor of the church, delivered a lecture on the physical features of the Wasatch range, which might be regarded as an orthodox, but which expresses the high ideals of the work of the Almighty that are held by the speaker. It is indicative of his liberal views and his intense cosmopolitan sentiments. His lecture is one of the first of a series of eight that Dr. Carver will deliver on the grandeur of the Wasatch range and on geological subjects generally.

FOUGHT THE POLICE.  
Six Young Bloods in Ogden Landed in Station.

Special to The Tribune.  
OGDEN, Jan. 29.—At the close of the performance at the Utah theater tonight six young fellows got into a fight in the gallery. Under the instructions of the police, they were ejected from the building. They then waited outside for the officers who had ejected them and made an assault on them. The boys, the oldest of whom is only a year or so, got the worst of the fight which ensued, and were taken to the police station. After they had booked they were permitted to go on their own recognizance to appear tomorrow morning and answer to the complaint charging them with disturbing the peace.

BIBLICAL LECTURE.  
Illustrated One Delivered at the First Methodist Church.

Special to The Tribune.  
OGDEN, Jan. 29.—At the First Methodist church tonight a big congregation saw the stereotyped views and listened to the biblical lecture of the Rev. H. H. Fier of the German Evangelical church. Among the views presented were three of the early life of Christ, all of which were accompanied by the Rev. Fier. There were twenty-three views of the Rock of Ages, and during their presentation S. Hayman sang the song. The services were conducted by the Rev. Samuel Blair, who gave a scripture reading and the prayer.

Builds Addition to Shop.  
Special to The Tribune.

OGDEN, Jan. 29.—The Southern Pacific company is erecting a new carpenter shop, 24x50 feet in dimensions, just west and south of the old Utah Pacific roundhouse in Ogden yards. The purpose is to furnish a shop for the use of the bridge and building department, and with special reference to the needs of what is known as the Evanston district, or the line under the jurisdiction of the Oregon Short Line officials from Ogden to Green River.

Converted by Evangelist.  
Special to The Tribune.

OGDEN, Jan. 29.—Rev. Joshua Gravitt of the Gallie Baptist church of Denver delivered three evangelical addresses today in the First Baptist church and secured a number of converts. The series of addresses will continue all of next week.

Brief Mention.  
Special to The Tribune.

OGDEN, Jan. 29.—The offices of the Pacific Express company at the Ogden Union depot, are being renovated under the direction of Agent W. D. Brown, and will be handsome in the interior.

Jacob West of Logan, one of the leading cattlemen of Bannock county, Idaho, with extensive ranges in the neighborhood of Chesterfield, passed through Ogden today on his way to California.

The Pure Good Tea  
Imported and packed only by  
M. J. BRANDENSTEIN & CO.  
San Francisco, Cal.

## OPEN PUBLICATION THE BEST GUARANTY OF MERIT.

When the maker of a medicine, sold through the channels of family doctors, tells his patients fully into his confidence by frankly and fearlessly publishing broadcast as well as on his bottle wrappers, a full list of all its ingredients in plain English, he is not only showing that he is not afraid to have the search light of investigation turned full upon his formula and that it will bear the fullest scrutiny of the most thorough investigation.

A glance at the published ingredients on each bottle wrapper, will show that it is made wholly from native, American, medicinal roots, that it contains no poisonous or habit-forming drugs, no opiates, no narcotics, no pure, triple-refined glycerine, of proper strength, being used instead of the commonly employed alcohol, both for extracting and preserving the active medicinal properties of the forest and the roots of the American forest plants employed. It is the only medicine for women's peculiar diseases, sold by druggists, that does not contain a large percentage of alcohol, which is the leading cause of harmful to woman's delicate nervous system. Now, glycerine is perfectly harmless, and serves a valuable purpose by possessing hyaline value all its own, and besides it enhances the curative effect of the other ingredients entering into the "Favorite Prescription."

Some of the ablest medical writers and teachers endorse these views and praise the scientific judgment of the makers of the "Favorite Prescription" is composed of recommending them for the cure of the very same diseases for which this world-famous medicine is advised. No other medicine of the kind has been so widely and enthusiastically endorsed—worth more than any number of ordinary testimonials. If interested, send name and address to Dr. R. V. Pierce, Buffalo, N. Y., for his little book of "Hints from the works of eminent medical writers and teachers endorsing the several ingredients and telling just what Dr. Pierce's medicines are made of. It's free for the asking."

## PUSHING WORK ON SHORT LINE EXTENSION

Big Cuts in Mountains on Yellowstone Park Line Nearly Ready for Ties.

Special to The Tribune.  
ST. ANTHONY, Ida., Jan. 29.—The new town of Ashton, situated twenty miles northeast of here, is forging ahead with surprising rapidity. Many lots are being sold by the Ashton Townsite company and the purchasers are erecting business houses thereon as fast as the supply of labor and material will permit. Ashton is the first town in the new line of the National Park in time to accommodate the tourist travel of next season.

Oil-Burning Engines.  
A few miles further on the Park extension will enter the Henry's Lake forest reserve, and to avoid the risk of setting which it will run, oil will be used for fuel by the railroad company from Ashton to Riverside station on the west line of the park.

Work in the Cuts.  
A force of four hundred men are now working in the rock cuts in the mountains beyond Ashton, and these will all be completed by the time the snow goes off in the spring, when a large force will push the road through island park and on to the National Park in time to accommodate the tourist travel of next season.

Will Develop Large Territory.  
The extension of the St. Anthony road to the park will develop a large territory, commercially tributary to St. Anthony, that has heretofore been held back by lack of transportation facilities. With the new territory developed, St. Anthony, already prosperous, growing and energetic, may expect greater things for the future. It is known that the year 1906 will see much activity in all lines of business, several blocks will be erected, a sewer system will be put in, and more than likely the year will see the complete harnessing of the immense power of the Snake river at this point. The most recent acquisition in a business way is a hundred-barrel flour mill which is now running at full capacity night and day.

St. Anthony Booming.  
Being backed by a large and productive country, her citizens being of a wide-awake and energetic nature having contrived for her an ideal location, St. Anthony, like the proverbial "good man," cannot be kept down, but will forge ahead, keep abreast of the times and maintain her supremacy of the upper Snake valley.

At the gateway to the National park, St. Anthony is taking much interest in the Snake river. A first movement, no person has by any means seen America until he has visited the Yellowstone park and Jackson's Hole, until he has viewed the Tetons, and the Snake river, the most beautiful river in the world.

## BLAZE IN A HOSPITAL

Eight Hundred Patients Endangered by Fire Here.

NEW YORK, Jan. 29.—Eight hundred patients in Bellevue hospital were endangered by a fire in the laundry building early today, yet through the quick and effective work of the hospital brigade and the regular firemen, who responded with the fire department, the fire was confined to the laundry and the loss was only a few thousand dollars.

Spontaneous combustion is believed to have started the blaze, a remarkable feature of the fire, the cause of which, as the firemen supposed, was a fireproof safe, according to Steward Philip H. Smith, chief of the hospital fire brigade.

## FINDS BOY THROUGH DREAM

Goes to Los Angeles, as Pictured, and Saves Him From Jail.

LOS ANGELES, Cal., Jan. 29.—Mrs. S. Caphart dreamed in Denver that her seven-year-old son, Charles F. Caphart, was in jail in Los Angeles. Upon the strength of this and because she had not heard from him for some time, she came to Los Angeles and found her dream was true.

The boy was arrested this morning, before the mother had found him, as one of a gang which had stolen 100 pounds of railroad brass to sell to a "fence." His accomplice declared that he had little to do with the offense, and as his mother gave her word for his future good conduct, he was released.

# FARMERS HOLD A MEETING TO PROVE

Utah County Tillers of the Soil Perfect an Organization.

OBJECT IS TO PROMOTE  
INTEREST AGRICULTURE

Local Branches to Be Established as May Be Decided on Later.

Special to The Tribune.  
PROVO, Jan. 29.—The farmers of Utah county are thoroughly alive to the necessity of organization and from the enthusiasm shown at the meeting held Saturday much good will result. The following resolutions were adopted:

What Resolutions Say.  
Resolved, That the farmers of Utah county organize themselves into an agricultural society, with local branches as may be decided on later, for the purpose of promoting all the agricultural interests of this county.

That the society shall give special attention to the following lines of agricultural endeavor, viz: First—The obtaining of fair and equitable prices for agricultural products.

Second—The dissemination of modern scientific and profitable methods of producing crops and maintaining and promoting institutions of learning and farmers' institutes and county fairs, that farmers and their sons and daughters may keep abreast with the general agricultural advancement.

Third—That we put forth our united efforts to induce the State Legislature to pass a law to the effect that agriculture shall be taught in our public and high schools.

Fourth—The securing of equitable rates of transportation.

Fifth—The securing of legislation in the interests of agriculture.

Sixth—The securing of new seeds, grain, fruit vegetables and pure bred live stock from home and foreign countries.

Seventh—The promotion of crop reports in this and foreign countries to enable the farmer to make better decisions.

Eighth—The improving of our highways.

Ninth—The promotion and extension of irrigation and the best methods of conservation of soil moisture.

Tenth—The promotion of social intercourse between farmers and the prevention of disputes without recourse to law.

Twelfth—The prevention of adulteration of food and marketing of the same.

We further recommend that this organization do all in its power to promote agriculture throughout the State, with the aim of perfect state organization.

It is further recommended that we become a branch of the American Society of Equity.

Prof. Miller Ill.  
Prof. Miller, musical instructor and band leader of the B. Y. University, is dangerously ill with typhoid pneumonia.

The attending physician has hopes of his recovery, but states that he is in a very critical condition. There is no improvement yesterday.

At the B. Y. University, was operated on yesterday, is much improved today, and in all probability will be able to leave the hospital on Monday morning.

Butler, A. B. Butte, a trusty patient at the State Mental hospital, took advantage of the fog today and skipped out. Butcher's home is in Richfield, where he was committed for insanity in 1904.

Up to a late hour the fugitive had not been located.

Scarlet Fever Epidemic.  
Special to The Tribune.

ST. GEORGE, Jan. 29.—The public schools of this place have been closed for nearly six weeks on account of scarlet fever. His disease is still spreading. All of the water used in the city makes it easy for the germs to spread.

## FOR MUNICIPAL OWNERSHIP

Chicago May Build System if Companies Hesitate About Price.

CHICAGO, Jan. 29.—I have appended my signature to the municipal ownership measure recently passed by the City Council, and am willing to content that my plans for the municipalization of the Chicago street car lines will be realized before my present term of office is ended.

Signs on Slicked.  
Mayor Dunne made the foregoing announcement tonight. He said he had signed the so-called "Slicked" ordinance last night while lying ill at his home, in the belief that it was necessary for him to secure some ordinance which would protect the city from the possibility of a strike from date of passage, in order that they might become legal under the provisions of the city charter.

The legal obstacles will be placed in the way of the consummation of his plans is anticipated by Mayor Dunne.

Wants the Act Tested.  
"I believe that right after election there will be a natural attempt to test the validity of the act itself," he said. "That, however, is a thing to be desired. We wish to have it done as quickly as possible, and I believe we should get a decision within three months at the minimum and six months at the maximum."

The Mayor declared that the defects in the ordinance, if any, could and would be remedied, and that it was drawn to achieve a permanent purpose and would be regarded as valid by the courts.

# WILSON That's All!

LITTLE REPUBLIC  
LIVED A MONTH

Revolting Soldiers Joined by  
Entire Population of Several Cities.

ST. PETERSBURG, Jan. 29.—The newspapers publish interesting accounts received by mail of the disorders in the smaller cities of the interior during the period of armed revolt, many of which passed unnoticed at the time owing to the interruption of telegraphic communication. In a number of instances the troops were defeated and driven out of the towns or forced to surrender.

Drive Cossacks Out.  
At Sotsol, on the Black sea, eighty Cossacks of the garrison who attempted to disperse a gathering in the market place were routed by the revolutionists and forced to flee to their barracks outside the town, where they were regularly besieged. The insurgents brought up an old cannon from the port and bombarded the barracks for two days with such effect that the Cossacks were forced to surrender.

Triumph Is Short-Lived.  
The triumph of the revolutionists was short-lived, however, for a torpedo-boat destroyer arrived from Batoum and the population, at the first threat of a bombardment, hastened to liberate the prisoners and to deliver up their arms, as well as the funds of the city treasury, which had been taken to the mountains.

Republic Lives a Month.  
A letter from Pyatigorsk, in Ciscaucasia, describes the rise and fall of the North Caucasian republic, which had a short and thrilling history of a month. After the revolt of the reserve soldiers were joined by the entire population of that and four neighboring cities. A constituent assembly was summoned and a "revolutionary army" formed, consisting of the multicolored soldiers, who were led by a renegade Cossack officer, and several bands of the fighting branch of the revolutionary organizations and other irregulars.

Carries on a Campaign.  
This "army" carried on a successful campaign against the troops guarding the railroad stations, who were driven back for some forty miles along the line with considerable loss. The revolutionists conceived the plan of marching to Rostoff-on-Don, 250 miles away, and even talked of continuing on to Kharkoff to join hands with the supposed revolutionists of that city. They were to stop on the way and attack the important arsenal at Georgievsk, where there are large stores of rifles, cannon and machine guns.

Made a Bold Start.  
The army was attacked by three companies of Cossack whom it defeated with heavy loss, most of the survivors being killed during their flight across the field of battle.

Later the "army" encountered a column of infantry, a battery of artillery and several companies of Cossacks. This column was too strong to be resisted, and the revolutionists, after a desperate fight, came to an end. The "public" then came to an end.

Boys and Girls Fight.  
The Vistula, in the government of that name, but largely composed of school boys and school girls, seized the waterworks, which they held for fifteen hours against a whole battalion of infantry. The troops were attacked in the rear by two companies of revolutionists who were firing from a fortified house. This house was captured, and among the killed was the colonel commanding the troops.

RISKED LIFE FOR JEWELS  
Senator McLaurin's Daughter Barely Escaped Alive at a Fire.

NEW ORLEANS, Jan. 29.—To save a diamond brooch Miss Irene McLaurin, daughter of Senator A. J. McLaurin, almost sacrificed her life in the burning home of H. L. Whitefield, State Superintendent of Education of Mississippi, in Jackson, early this morning.

The fire broke out from some unknown cause and made rapid headway. All in the household, however, had made their escape without difficulty, when suddenly Miss McLaurin was missed, and it was found she had dashed back into the house to save the brooch, which was presented to her by her father a few weeks ago. The young woman made her way up the main staircase to the bedroom she had been occupying on the second floor. The room was filled with smoke, and flames were creeping up around her. Nevertheless, Miss McLaurin went in, and groping about, found the brooch on a dressing table. In trying to flee from the house again she was caught by the flames, and she was staggering down the stairs when two firemen rescued her. The entire first and second floors then were ablaze, but the fire fighters went in determined to bring out the young woman. They found Miss McLaurin reeling and almost on the point of collapse, and just had strength themselves to carry her to the outside.

A few moments after the firemen had passed out of the fire and smoke, the young woman limp in their arms, the roof fell in, and an hour later the house was in ruins.

# HERDER WANDERS ALL NIGHT IN BAD STORM

Hands and Feet Are Frozen  
Before Assistance Finally Reaches Him.

Special to The Tribune.  
VERNAL, Jan. 29.—William Bigelow of Wallburg, a shepherd employed by Charles Carter of Vernal, was found Friday afternoon by J. B. Peterson's surveying party, after he had wandered in the snow and storm for thirty hours, in an almost frozen condition.

Horse Ran Away.  
Bigelow started from Dora the day before to go to Carter's camp with supplies. He had a horse and two pack burros. When within 400 yards of the camp his hat blew off. In getting off to recover it his saddle turned, his horse and burros ran away, and he was left alone in the blinding storm.

Alone All Night.  
Left alone and unable to get his bearings, the unfortunate herder wandered about in the snow all that afternoon and night and the next day until he was too weak to walk. He was found within less than a mile of camp, sitting with his back against a cedar tree, almost dead from cold and exposure.

Was Badly Frozen.  
Bigelow's hands and feet were badly frozen and the effect of his exposure was such that when taken into a warm room he became unconscious. His condition is serious, but it is believed that he will recover.

The weather has been extremely cold both at Vernal and on the reservation, the mercury dropping frequently to 15 degrees below zero.

Myton and Dora are both booming, according to reports, but the seeming monopoly which the Vastac Development company holds on the good things at the latter town is, to some extent, retarding its growth.

Fred Erickson's Body Found.  
VICTORIA, B. C., Jan. 29.—The body of Fred Erickson, a Canadian, who has been found a mile east of Cape Beale. He was found in a hole in the ice. He had an identification card in his pocket.

# SCALY ECZEMA ALL OVER BODY

Eruptions Appeared on Chest, and Face and Neck Were All Broken Out—Scales and Crusts Formed—How Lady Has Great Faith in Cuticura Remedies for Skin Diseases.

ANOTHER WONDERFUL  
CURE BY CUTICURA

"I had an eruption appear on my chest and body and extend upwards and downwards, so that my neck and face were all broken out, also my arms and the lower limbs as far as the knees. I at first thought it was prickly heat. But soon scales or crusts formed where the breaking out was. Instead of going to a physician, I purchased a complete treatment of the Cuticura Remedies, in which I had great faith, and all was satisfactory. A year or two later the eruption appeared again, only a little lower, but before it had time to spread I procured another supply of the Cuticura Remedies, and continued their use until the cure was complete. It is now five years since the last attack, and have not seen any signs of a return. I have taken about three bottles of the Cuticura Remedies, and do not know how much of the Soap or Ointment, as I always keep them with me; probably one half dozen each."

I decided to give the Cuticura Remedies a trial after I had seen the results of their treatment to one of our neighbors. The parent took the child to the nearest physician, but his treatment did no good. So they procured the Cuticura Remedies and cured her with them. When they began using Cuticura Remedies her face was terribly disfigured, with sores, but she was entirely cured, for I saw the same child at the age of five years, and her mother told me she had never broken out since. I have more faith in Cuticura Remedies for skin diseases than anything I know of. I am, respectfully yours, Emma E. Wilson, Liscomb, Iowa, Oct. 1, 1905."

Complete External and Internal Treatment for Every Humour, from Pimples to Scrofula, from Itchiness to Erysipelas, including all the Skin Diseases, such as Eczema, Psoriasis, etc. (In form of Cuticura Soap, 25c.
